

Notice of Proposed No Further Action

For

Dave's Texaco (Former)
7200 Healdsburg Avenue
Sebastopol, California

Case Number 1TSO224

Sonoma County

Notice Posting Date: April 6, 2020

End of Comment Period: June 5, 2020

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains, this site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy."

Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

An unauthorized discharge of petroleum hydrocarbons was discovered at the site during the removal of five petroleum underground storage tanks along with the associated piping and pumps. Soil and groundwater investigations were conducted to define the extent of contamination and led to implementation of corrective actions. Residual subsurface contamination exists, and groundwater monitoring has documented that residual subsurface contamination is not spreading. No water supply wells are impacted or appear threatened. Natural attenuation will be relied upon to reach water quality objectives.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "[Low-Threat Underground Storage Tank Case Closure Policy](#)."

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Cody Walker at (707) 576-2642 or Cody.Walker@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:

North Coast Regional Water Quality Control Board

Regional Water Board site records comprise both a paper file and an electronic file. Beginning in 2005, select file material was uploaded to the State Water Resources Control Board's GeoTracker website and not necessarily included in the paper file. All new file material after 2014 is retained only electronically. The [GeoTracker records](#) are available at https://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609700169.

The paper file ("Dave's Texaco (Former)"), Case No. 1TSO224) may be reviewed at the North Coast Regional Water Quality Control Board office from 8:00 a.m. to 5:00 p.m. Monday through Friday. Appointments are recommended and can be arranged by calling (707) 576-2220.
